I went to
Hiroshima prefecture

I visited the
heritage sites

with my son. But he spent time with his friend. Then, I took
an excursion by myself. I used a tram and ferry boat.
These were convenient. A day ticket is 840 yen!

There were a lot of deer in
Miyazima (Miya island).
Itsukushima shrine is built on
the sea. It's like Venice.

It admits lots of fresh air and It's a power spot.
People from a lot of different countries visited there, too.
I took a bath in the morning in Miyazima.
I recommend Soba at "Kakian" in Hatsukaichi
city. It is near the ferry boat st. in Hiroshima.
